

Referaty naszych pracowników na konferencji:

R. Czubacki, T. Lewiński, Stability analysis of straight elastic bars of atypical cross-sections. In: K.Rzeszut, R. Studziński, J. Szafran (Eds.) XXVIII LSCE Lightweight Structure in Civil Engineering Contemporary Problems, p. 47-48, Book of Abstracts. The Conference organized by Polish Chapters of International Association for Shell and Spatial Structures, Poznań University of Technology, Faculty of Civil and Transport Engineering. Poznań, 1st – 2nd of December 2022.

R. Czubacki, T. Lewiński, Axial and lateral buckling of straight elastic bars of atypical cross-sections. In: K.Rzeszut, R. Studziński, J. Szafran (Eds.) XXVIII LSCE Lightweight Structure in Civil Engineering Contemporary Problems, p.49-52. Book of Abstracts. The Conference organized by Polish Chapters of International Association for Shell and Spatial Structures, Poznań University of Technology, Faculty of Civil and Transport Engineering. Poznań, 1st – 2nd of December 2022.
